

Acme Support AI — Specialized Agent Routing Test Queries

This guide contains exactly 5 in-scope questions (grounded in the documents) and 5 out-of-scope questions (not covered by the documents) for every domain agent. Use these to test the orchestrator's routing accuracy and the LLM's grounding capability (i.e., verifying the agent declines to hallucinate when a question is out of scope).

1. Billing Agent (Intent: 'billing')

Questions grounded in documents (In-Scope):

1. "What are the rules and guidelines for TechMart Electronics refunds?"
